CHRONOLOGICAL NOTES.

Golden Number	XVI	Dominical Letters	ED
Epact	15	Roman Indication	9
Solar Cycle	1	Julian Period	6600

The year 5657 of the Jewish Era commences on September 8th, 1896.

Ramadan (month of Abstinence observed by the Turks) commences on February 10th, 1896.

The year 1314 of the Mahomedan Era commences on June 11th, 1896.

The Hindu year 1303 commences on April 12th, 1896.

The Solar Cycle, or Cycle of the Sun, is a period of 28 years, in which all the varieties of the Dominical Letters will have happened, and they will return in the same order as they did, 28 years before. This Cycle commenced nine years before the Birth of Christ.

The Lunar Cycle, or Cycle of the Moon, commonly called the Golden Number, and sometimes the Metonic Cycle (from Meton, an Athenian, who invented it about 432 years before the Birth of Christ), is a revolution of 19 years; in which time, the conjunctions, oppositions and other aspects of the Moon are within an hour-and-a-half of being the same as they were on the same days of the months, 19 years before. The principal Golden Number, is the number of years elapsed in this Cycle. At the Birth of Christ the Golden Number was 2.

The Roman Indication is a period of 15 years used by the Romans for the time of taxing their provinces. Three years of this Cycle had elapsed at the Birth of Christ.

The Julian Period contains 7980 years, and arises by multiplying together 28, 19 and 15, being the Cycles of the Sun, Moon and Indiction. This was also conceived as a period for Chronological matters, and is assumed as a correct and fixed rule in calculation by all the Astronomers and Chronologers throughout the Christian world. Its beginning is supposed to have commenced 710 years before the usual date of the creation of the world, or 4714 before the commencement of the Christian Era.

ECLIPSES IN 1896.

In the year 1896, there will be four Eclipses; two of the Sun and two of the Moon. The Solar Eclipses are both central, one of them Annular, on February 13th; the other Total, on August 9th.

The Lunar Eclipses are both partial, occurring on February 28th, and August 23rd. Of these four Eclipses, the only one visible in India, is the former of the two Lunar Eclipses.

The use of this Table is too obvious to require an explication on.— Observe, that by reason of the Refraction, the Sun appears to be much higher than it is; that if the rising and setting be reckoned from the time when the Sun is quite above the Horizon, it will be nearest the truth.

This is one of the nicest months in the year. The days are cool, but the mornings and evenings generally damp.

The thermometer ranges in the shade from 52° in the morning to 65° in the afternoon.

In the market will be found beef, mutton, veal, lamb, pork, kid, poultry, &c., of the best and most superior kind.

Game is to be had in great abundance—snipe, duck, teal, &c.

The fish market is well supplied at this season with beeky (the salmon of the East), moonjee, rowe, cutlah, quoye, sowlo, sellah, bhola, cels, banspoh and many of inferior descriptions.

Vegetables of all kinds are in the highest state of perfection; the markets abound with green peas, cauliflower, cabbages, turnips, yams, potatoes, carrots, spinach, greens, cucumbers, radishes, celery lettuce, young onions, knol khol, kochoo, French beans, seams, brinjalls, red and white beet, &c., &c.

The fruits in the season are bylhor and Chiaa oranges, plantains, sugar-canes, plumps, guavas, country almonds, limes and gooseberries.

The beginning of the present month is generally cool and comfortable, particularly if the northerly winds prevail; the weather afterwards becomes less pleasant, till a change of season takes place about the end of the month.

The thermometer in the shade ranges on a medium from 58° in the morning to 75° in the evening.

Measles among children is very prevalent during the whole of this month.

The meat market continues good and abundant.

The additional vegetables for this month are asparagus, pomkins and young cucumbers, fruits, mulberries, bael and small water-melons.

The weather gets warmer day by day.

The thermometer ranges in the shade from 68° in the morning to 82° in the afternoon.

Various operations of husbandry generally commence this month or soon as the ground is moistened by rain; this, however, sometimes happens at the latter end of February, but then it is occasioned by an unusual quantity of rain.

The meat market continues good.

Fish is in abundance, and the market has the addition of the gooteah, a small and well-favoured fish. Green peas and turnips disappear this month; salad, cabbage, carrots and celery are on the decline, but asparagus and potatoes continue excellent; green mangoes and musk melons are to be had, also amrah, greens and water-cresses. Fruit is also plentiful—large water-melons appear about the middle of the present month and continue in perfection till the middle of June.

The north-westerly winds with thunder, lightning and rain, generally commence about the termination of this month.

The beginning of this month is sometimes pleasant, particularly if the north-westers are frequent; but the middle and latter parts are disagreeable in the extreme; it is one of the bad months in the year. The thermometer ranges in the shade from 80° in the morning to 90° afternoon, and when exposed to the sun it rises to 110°.

This is an unfavorable season for meat which begins to be flabby and poor, the fat spongy and yellow. The fish market has the addition of the mangoe-fish, a sea fish, so called from its annual visit to all the Bengal rivers at this (the mangoe) season to spawn; it disappears about the middle of July. The carp and mahgoor can also be had in this month.

Potatoes, asparagus, onions, cucumbers and few cabbage sprouts are the only vegetables to be produced. Water melons and musk-melons are in great perfection, there is not much fruit now to be had in the market. Green mangoes for pickling and caranda for tarts, are in great abundance.

The present is considered the very worst month in the year, the heat being excessive.

The thermometer ranges in the shade from 85° in the morning to 95° in the afternoon; if exposed to the full influence of the sun's beams it will rise to 130° and sometimes higher.

The weather this month is most oppressive, especially the latter half; the wind continues southerly and the heat is scarcely bearable. Of all the months in the year the present is the most trying. The heat in the first half of the month is sometimes relieved by north-westers accompanied by refreshing showers.

The meat market is very inferior to that of last month.

The fish market continues good and abundant, the beeky excepted. Mangoe fish is in great perfection. Asparagus, potatoes and cabbage sprouts with indifferent turrips, sweet potatoes, cucumbers and onions are nearly all the vegetables now in the market; pumpkins and oocurbitaceous roots are however procurable. The south-west monsoons with the periodical rains set in about the middle of this month. The thermometer in the first part of this month rises frequently to 99° in the shade at noon; from about the 16th, if the rains commence, the heat subsides.

The weather throughout the whole of this month is pleasant or oppressive, according to the quantity of rain-fall; if the weather be dry, the heat is scarcely bearable; it is generally very close; but if the rains commence, as they are expected to do (in regular seasons) between the 16th and 20th of the month the air is refreshing and the weather not uncomfortable.

Meat very indifferent.

The fish market much the same as last month. Mangoe-fish being in great abundance and perfection. Asparagus and potatoes, onions and Indian corn, are principal vegetables that remain.

Mangoes are in great abundance and perfection. Bombay mangoes can now be had in the market; they are next to the Malda in flavor and quality. Peaches, litchies, &c., appear this month. Custard-apples, pine-apples, jack and guavas are in great perfection.

This month is attended with much rain; the winds are light and variable; weather frequently gloomy and sometimes stormy with heavy falls of rain; whilst at intervals, it is fair, mild, and the temperature agreeable.

The thermometer ranges in the shade from 80° in the morning to 89° in the afternoon.
 Moist continues less and poor.
 The fish market continues good. The moonjee, rowe cutla, quoye, sowlee, mahgoor, chingree, tangra and the chunah are procurable all the year round. The Hhika (or sabie) fish makes its appearance; this fish though very rich, is generally considered a delicacy, either boiled, baked or roasted, when cured with tamarind it forms a good substitute for herrings. This fish cured with samarind is commonly called "Tamarind fish."
 The vegetable market is very indifferent—asparagus is in season, but potatoes become poor and watery, young lettuces, cucumbers and sweet potatoes are now procurable; also cumarung and corung.
 Mangoes disappear at this time. Pine-apples, custard-apples, jack and guavas continue in season.
 The genuine Malda mangoes may now be had; they are undoubtedly the best of the mango kind.

The wind continues light and variable, attended with occasional cloudy weather.

Day and night equal on the 22nd of this month.

The thermometer ranges from 80 in the morning to 85 in the afternoon.

The meat market is much the same as last month.

The fish market experiences but slight improvement, for although there is abundance, yet it is not always firm and good except the becky, which becomes larger and better flavoured. The following are also in the market: the bhola, dassy tangra, gonteah, bhengris, bhongtor, kowathotee, pyrah-chanda, also shell fish (bagda chingree).

Vegetables are very indifferent; yams generally come into season about this time. Custard-apples, pine-apples, guavas and publoos continue in season.]

The thermometer ranges in the shade from 78° in the morning to 85° in the afternoon.

The winds are in general light and variable during the month, veering from South to N.-W., "hence to North and N.-E.

ADMINISTRATION OF PROPERTY.

UNDER ACT II OF 1874.

THE ADMINISTRATION OF THE PROPERTY IN INDIA OF DECEASED PERSONS.

THE CUSTODY AND PRESERVATION OF THE PROPERTY IN INDIA OF DECEASED PERSONS, NOT HINDUS, MUHAMMADANS OR BUDDHISTS.

When any person, not a Hindu, Muhammadan, or Buddhist, or exempted by the Governor-General in Council from the operation of the Indian Succession Act II, 1874, § 64) within which the assets are locally situated at the time of the death to take charge of them, and this is always the case whether the deceased has left a Will or died intestate.

The District Judge is to report the case to the Administrator-General of the Presidency (Act II of 1874, § 64). "Assets" include immoveable as well as moveable property (ib § 8).

In case, of death, therefore, persons interested in the preservation of the property of the deceased in India should at once communicate with the Judge of the district in which any of it is situated and with the Administrator-General of the Presidency.

They should state the full name and occupation of the deceased—his nationality—the date and place of death—the nature and amounts of any property he may have left in the district in question or in any other part of India : whether there is or is not a Will : if so, where it is ; the name and addresses of the witnesses and executors : if there is no Will, they should give the names and addresses of the next-of-kin of the deceased, &c., so far as they are themselves informed on these matters.

It is also very important with reference to the stamp duty, that the person who is to represent the estate should know, as soon as possible, the value of the assets moveable and immoveable, as accurately as it can be ascertained, for until he has the knowledge he cannot apply for probate or letters of administration. The Court Fees Act imposes a stamp duty of 2 per cent. upon the assets if they exceed 1,000 rupees and there is not provision in the Act of any adjustment of the stamp duty after the grant has been made. It must be paid in full at once, and no refund can be made under the Act of the assets are over estimated. The Government will, however, under a recent order, allow application to be made for a refund in respect of money paid in satisfaction of the debts of the deceased. If the assets do not exceed 1,000 rupees, no stamp is required.

THE REALIZATION OF PROPERTY OF SMALL VALUE BY A CERTIFICATE FROM THE ADMINISTRATOR-GENERAL BY THE POLICE AND OF SMALL SUMS IN THE GOVERNMENT SAVINGS BANK.

If the whole of the assets do not exceed in value Rs. 1,000, any person entitled, as executor, or widow, to administer in any capacity save as a creditor, may apply at once in writing to the Administrator-General of the Presidency for a certificate, and on satisfactory proof of the representative's right, a certificate can be granted, entitling the claimant to receive the sums or securities for money therein severally mentioned (Act II of 1874, § 36), or a creditor may obtain a certificate after the lapse of three months, or the Administrator-General may Act without probate or letters of administration (§ 37).

But no certificate can be granted when probate or letters of administration have been obtained, or in respect of any sum of money deposited in a Government Savings Bank (§ 37).

Where persons die intestate in the Presidency Towns, leaving property under 200 rupees in value, the police authorities are empowered to take charge of it and to deliver it over to any person showing a right to it, without letters of administration (Act XIII of 1856, § 113, and the Bengal Act IV of 1866 § 100, Madras Act VIII of 1867).

When a person dies leaving in a Government Savings Bank a deposit of a sum of money not exceeding 1,000 rupees, and if probate of this Will ; or letters of administration to his estate, or certificate under Act XXVII of 1860 (this certificate is different from that granted by an Administrator-General, and is granted by a Judge, and is now only given in native cases) is not produced to the Secretary of the Bank within three months of the death of the depositor, the Secretary may pay the money to any person appearing to him to be entitled to receive it or to administer to the estate of the deceased, and he may take such security from such person as he thinks necessary, and he may also in order to ascertain the right of the person claiming the money, take evidence on oath or affirmation.

An executor or administrator of a deceased depositor is entitled afterwards to receive any sum in the hands of the person so receiving the deposit from the Secretary of the Bank, deducting such part of it as is lawfully paid away in the due course of administration, and a creditor of the deceased may recover his debt against a person so receiving the deposit, should any part remain in his hands unadministered in the same manner as if the receiver had obtained letters of administration.

If the amount of deposit, in a Government Savings Bank belong to the estate of a deceased person does not exceed 1,000 rupees, such amount shall be excluded in com-

putting the fee chargeable under the Court fees Act of 1870 on the probate or letters of administration or certificate in respect of his other property. But a certificate of the deposit amount signed by the Secretary of the Bank, will, in this case, have to be produced before the Court (Act V of 1873, *The Government Savings Bank Act*).

The enactment does not apply to deposits in Savings Banks belonging to estates of European officers, soldiers, or deserters.

LETTERS OF ADMINISTRATION IN CASE OF INTESTACY.

When the deceased had died intestate, those who are connected with him either by marriage or consanguinity, are entitled to obtain letters of administration of his estate and effects in the following order (Act X of 1865, § 200).

If the deceased has left a widow administration shall be granted to the widow unless the Court shall see cause to exclude her.

If there be no widow, or if the Court see cause to exclude her, it shall commit the administration to the person or persons who would be beneficially entitled to the estate according to the rules for the distribution of an intestate's estate: provided that when the mother of the deceased be one of the class of persons so entitled, she shall be solely entitled to administration (§ 203).

Those who stand in equal degree of kindred to the deceased are equally entitled to administration (§ 204.)

The husband surviving his wife has the same right with respect to her estate (§ 205.)

When there is no person connected with the deceased by marriage or consanguinity who is entitled to letters of administration and willing to act, they may be granted to a creditor (§ 206). but an Administrator-General is entitled to administer in preference to any one but an executor universal legatee, or absolute next-of-kin (Act II of 1864).

The application for letters of administration should be made by petition properly stamped, and should state the time and place of the death of the deceased: the family or other relatives of the deceased, and their respective residences; the right in which the petitioner claims that the deceased left some property within the jurisdiction of the District Judge to whom the application is made; and the amount of the assets which are likely to come to the petitioner's hands (§ 246). The petition should be subscribed by the petitioner and varified thus:—"I (A. B), the petitioner in the above petition, declare that what is stated therein is true to the best of my knowledge and belief." (Act X of 1865, (§ 247).

Letters of administration cannot be granted until after the expiration of fourteen clear days from the day of the intestate's death (§ 258). They entitle the administrator to all rights belonging to the intestate as effectually as if the administration had been granted at the moment after his death (§ 131), but they do not render valid any intermediate acts of the administrator tending to the diminution or damage of the intestate's estate (§ 192).

Every person, except an Administrator-General to whom any grant of administration is committed, is called upon to enter into a bond, with two sureties engaging for the due collection and administration of the assets (§ 256). This Bond is general in double the amount of the assets likely to come to his hand, and is stamped with a stamp now fixed at eight rupees (Act VII of 1870, schedule 2, clause 16).

SUCCESSION TO MOVABLE PROPERTY OF DECEASED PERSONS REGULATED BY THE LAW OF THEIR PLACE OF DOMICILE.

Should any person die possessed of property in British India succession to his immoveable property is regulated by the law of British India wherever he may have had his domicile at the time of his death (Act X of 1865, § 5). It follows, therefore, that the law of British India must be complied with—first in determining the validity of a Will, should there be one; second, in the construction of the Will; and third in case of intestacy, in determining the persons among whom the property is to be divided.

But succession to the moveable property of a deceased person is regulated by the law of the country in which he had his domicile at the time of his death (*ibid*). Hence it is necessary in such cases to determine in the first instance what was the domicile of the deceased person.

Under the Indian Succession Act, § 6, a person can only have one domicile for the purpose of succession to his moveable property. The domicile of origin of every person

of legitimate birth, is in the country in which, at the time of his birth his father was domicile; or if he was a posthumous child, in the country in which his father was domicile at the time of his father's death (§ 7); and the domicile of origin of an illegitimate child is in the country in which at the time of his birth, his mother was domiciled (§ 8). The domicile of origin prevails until a new domicile has been acquired (§ 9).

A man acquires a new domicile by taking up his fixed habitation in a country which is not that of his domicile of origin (§ 10). The points to be determined are therefore—first, whether he actually has taken up his residence in the country; and second, whether he intends to make it his "fixed" residence for the future. (Explain and illustrate *ibid.*)

A person may acquire a domicile in British India either by taking up his fixed habitation in the country as above, or by making and depositing in some office in British India to be fixed by the Local Government a declaration in writing under his hand, of his desire to acquire such domicile, provided that he shall have been resident in British India for one year immediately preceding the time of his making such declaration (§ 11). A new domicile continues till the former domicile is resumed, or another has been acquired (§ 19).

By marriage a woman acquires the domicile of her husband if she had not the same domicile before (§ 15); and the wife's domicile during the marriage follows the domicile of her husband, unless they be separated by the sentence of a competent court, or if the husband is undergoing a sentence of transportation (§ 16).

Succession to moveable property of a person who dies in British India, leaving moveable property therein the absence of proof of any domicile elsewhere is regulated by the law of British India (§ 19).

It would be competent to a foreigner dying in, and not domiciled in British India by a Will properly executed to appoint the Administrator-General or any other person his executor; and such an appointment would be valid as against the Consul of his nation (§ 179), the executor would be bound to distribute the estate according to the law of the country of the domicile of the deceased as to his moveable property, whilst his immoveable property, if any, would be subjected to the law in force in British India (§ 5).

But should a foreigner, having acquired a domicile in British India, die either intestate or leaving a Will, the succession to his estate would be regulated by the law in force in British India relating to intestate succession or to Wills as the case might be. That law would apply to all his property whether moveable or immoveable in British India; it would all pass to the executor or administrator as the case might be (§ 179); but it would not necessarily pass to the Administrator-General unless he should administer. This he would do only in case he was appointed executor, or in the absence or at the request of the next-of-kin or executor, or of an universal legatee (Act II of 1874, § 15).

THE ADMINISTRATOR-GENERAL, HIS DUTIES AND POWERS.

There are three Administrators-General in British India one for each of the Presidencies of Bengal, Madras and Bombay (Act II of 1874, § 4). Their offices are at Calcutta, Madras and Bombay respectively.

The Presidency of Bengal includes, for this purpose (§ 3), the territories which are or shall for the time being be respectively under the Government of the Lieutenant-Governor of Bengal, the North-Western Provinces, and the Punjab, and under the Administrations of the Chief Commissioners of Oudh, the Central Provinces, British Burmah, Ajmere and Mairwarra, Assam, and the Andaman and Nicobar Islands, and such of the dominions of the Princes and States in India in alliance with her Majesty as the Governor-General in Council may, by notification in the *Gazette of India*, from time to time, direct.

The Presidency of Madras includes the territories which are or shall for the time being be under the Government of the Governor of Fort St. George in Council. Coorg, Mysore and such of the dominions aforesaid, and the Governor-General in Council may, by notification in the *Gazette of India* from time to time, direct (*ib.*).

The Presidency of Bombay means the territories which are or shall for the time being be under the Government of the Governor of Bombay in Council, the Hyderabad Assigned Districts, and such of the dominions aforesaid as the Governor-General in Council may, by notification in the *Gazette of India*, from time to time, direct (*ib.*).

The duties of the Administrators-General, and their powers, will be found set out at length in Act II of 1874 of the Governor-General of India in Council. But it may here be shortly stated, that under section 15 of that enactment, the Administrator-General is entitled to letters of Administration, unless granted to an universal legatee or to the nearest-of-kin, that is the nearest-of-kin absolutely not merely, the nearest-of-kin in India,—in the goods of *Smallwood* per Norman, J., July 20th, 1868, where a brother, the nearest-of-kin, in India, was held not to be entitled in priority to the Administrator-General, there being a father and mother alive in England.

By section 16 he is required within a reasonable time after he shall have had notice of the death, and that the deceased has left assets within the Presidency (as defined above) to take steps to apply to the High Court for letters of Administration, and this, whether the deceased has left a Will or not; provided that the assets are of greater value than Rs. 1,000, and that no person shall, within a month after the death, have applied in such Presidency for probate of a Will, or for any letters of administration of the estate; that is, to say, no person to whom the Court would have given, letters of administration which would be effectual as regards the assets for which administration is sought.

But there is nothing to prevent the Administrator-General for applying to the Court for letters of Administration in any case within the period of one month from the death of the deceased (Act II of 1874, § 23.)

If the assets do not exceed Rs. 1,000 in value in the whole, the Administrator-General is not bound to act; but he may either grant a certificate to some persons entitled, or take charge of the estate himself without letters of administration, under Act II of 1874, (§ § 36, 37)

Letters of administration or probate granted to an Administrator-General in his official capacity, authorize the person filling the office for the time being to act as administrator or executor of the estate to which such letters of administration or probate shall relate (§§ 29, 30) and all estate, &c., vested in the Administrator-General, all his books, &c., become vested in and transferred to his successor in office (§ 30) thus the inconvenience, delay and expense attending the appointment of a fresh administrator on the death of the original administrator or executor are avoided when the estate is placed in the hands of the Administrator-General.

Any private executor or administrator may, with the consent of the Administrator-General of the presidency in which property comprised in the probate or letters of administration is situate by an instrument in writing under his hand bearing a stamp of ten rupees, and notified in the local Gazettee, transfer the estate, &c., vested in him by virtue of such probate or letters to the Administrator-General by his name of office; and thereupon the transferer becomes exempt from all future liability. His future rights and responsibilities are transferred to the Administrator-General. But the transferer remains liable for all his acts and omission in respect of the property prior to the transfer (§ 31).

As soon as the Administrator-General takes charge of the estate, the fact is advertised in the Gazette and in the public papers, and creditors are called upon to prove their claims. They should state the amounts and other particulars, and support their claims by such evidence as (under the circumstances of the case) the Administrator-General is reasonably entitled to enquire. If a claimant fail to do this within one month of the date of the institution of any suit he may bring against the Administrator-General in respect of his claim, he will be liable, in any event, to pay the costs of that suit, and he will not be entitled to have his decree enforced. If he obtains judgment he will be entitled only to payment out of the assets rateably with the other creditors (§ 35).

The Administrator-General like every other executor or administrator, is bound to keep the assets for a reasonable time to answer the claims of creditors. This time is fixed by the law generally at one year (Wms. Exors. 6th ed., p. 1286); but where the case permits of it, the account can be closed earlier. Like any other executor or administrator he is bound to pay all creditors rateably or preferentially according to the law governing the distribution; after the expiration of a year from the date of his administration no claim can be made upon him in respect of any assets paid or delivered by him to any legatee or to any person entitled in distribution unless he had notice of the claim (§ 28).

Under the Indian Succession Act, the following payments only may be made in preference, *viz.* :—Funeral expenses, death-bed charges, fees for medical attendance, board and lodging for one month prior to death.

Expenses of obtaining probate or letters of administration including the cost of any judicial proceedings necessary for administering the estate, rank next and then wages or services rendered to the deceased within three months next preceding his death by any labourer, artizan and domestic servant; all other debts are on an equal footing (Act X of 1865, §§ 279, 280, 281 and 282). These rules apply in all cases where the assets consist of immoveable property in British India; where they consist of moveable property, the law of the country in which the deceased was domiciled prevails (§§ 283), but no creditor, who obtains a part payment in preference to others by reason of this rule can share in the proceeds of any immoveable property of the deceased without bringing such payment into account (§ 286).

The Administrator-General is bound to keep accounts as prescribed by the Act. These accounts are audited by the Government, and his books are open at all times to the Auditor appointed by Government, and to allow persons entitled so to do to inspect them on payment of a reasonable fee fixed by Government (Act II of 1874, § 43); he is bound to furnish half-yearly schedules of estate under his charge in form prescribed by the Act; these schedules are published in the Gazette of the presidency. Three copies are sent to the Government for transmission to the Secretary of State for India for the information of persons who are interested in the matter.

The Administrator-General of Bengal is entitled to a commission of 3 per cent., and the Administrators-General of Bombay and Madras to a commission of 5 per cent., (§ 52), except in the case of the estates of officer and soldiers, when the commission is uniformly 3 per cent. on the assets after payment of the preferential charges (§§ 21 and 52). This commission is to cover the expenses of his establishment: but he is entitled to reimburse himself in addition for any payment made by him in respect of any estate in his charge which a private administrator of such estate might have lawfully made (§ 54). The commission allowed by the Act is the maximum commission. It may be reduced by arrangement in special cases. No person other than an Administrator-General acting officially shall receive or retain any commission or agency charges for anything done under any probate or letters of administration (§ 56).

All correspondence to the administrator-General should be addressed to him by his name of office.

NATIVE WILLS.

An important change in the law regarding the Wills of Natives was effected by Act XXI of 1870, by which Act certain Sections of the Indian Succession Act are applied to all Wills of Hindus, Jains, Sikhs or Buddhists made after the 1st of September 1870, within the territories subject to the Lieutenant-Governor of Bengal or the local limits of the High Courts of Judicature at Madras and Bombay; and to all such Wills and codicils made outside those territories and limits, so far as relates to immoveable property situate within those territories and limits.

The sections that have been so applied are enumerated. They relate to;—

1. The execution and revocation of Wills and codicils.

This subject which was very obscure is now no longer left in uncertainty.

The rules are prescribed by the Act.

2. The construction of Wills.

The simple rules contained in sections 82, 83, 85, and in sections 88 to 103 (both inclusive) of the Indian Succession Act applied to those Wills or Natives, as are also the rules as to the vesting of Legacies—Onerous and Contingent Bequests. Conditional Bequests and Bequests with directions as to their application or enjoyment—Bequests in an executor—Specific and demonstrative Legacies—The Ademption of Legacies—The payments of Liabilities in respect of the subject of a Bequest—Bequests of things described in general terms—of the Interest or produce of Land—of Annuities—Legacies to Creditors and Portioners—and Election.

3. The proceedings and practice to be observed in obtaining Probate of Wills.

4. The rights and duties of executors.

In all these matters the Native Wills are put on the same footing with the Will of the European—any executor may be appointed—and if it is desired to obtain the security of the Government Audit of the executor's accounts, the estate may be made over to the Administrator-General either by the original Will or by transfer (under Act II of 1874, § 31), as is done in the case of Europeans.

OFFICIAL TRUSTEE'S OFFICE.

This office was created by Act XVII of 1864 in consequence of the difficulty experienced in India in obtaining private Trustees, and the trouble and expense of appointing new Trustees, on the death or departure from India of those already created.

The Official Trustee is paid by commission, and may, at his own option, undertake all kinds of Trusts, except religious Trusts, but must always be appointed sole Trustee and cannot act jointly with any one else.

There are four classes of cases under the Act in which the services of the Official Trustees will be useful.

(1.) *New Trusts.*—When a person is desirous of making a settlement of property on marriage, or at any other time, for the benefit of his wife or family, or of any other person, or for a charitable purpose.

(2.) *Assignment for benefit of Creditors.*—When a person in embarrassed circumstances is desirous of assigning all his property to a Trustee for the benefit of his creditors.

(3.) *Existing Trusts.*—When the Trustees are dead, or out of the jurisdiction of the High Court or unwilling to continue acting.

(4.) *Gifts or Legacies for Infants or Lunatics.*—When the executor or other person holding such property is anxious to be relieved of the charge.

MODE OF OBTAINING APPOINTMENT OF OFFICIAL TRUSTEE.

In new Trusts he is appointed by the Deed creating the Trust, in other cases a petition to the High Court is necessary, the costs of which are usually ordered to be paid of the Trust Funds. By means of a like petition the Funds can always be retransferred to a private Trustee, unless otherwise provided by the Deed or Will creating the Trust.

All property and interests vested in an Official Trustee will, upon his death, resignation, or removal from office, vest in his successor in office, without any fresh appointment or charge whatsoever.

It is necessary to employ a Solicitor in preparing Trust Deeds, and in applying to the Court for the appointment of the Official Trustee. In most cases, also, it will expedite business if communications respecting Trusts be made through a Solicitor.

The above relates to the appointment of the Official Trustee under the summary procedure provided by the Official Trustee's Act, but the Official Trustee can be and often is appointed Trustee under a decree of Court with special powers and on special terms.

COMMISSION.

In *new Trusts* the rates are agreed upon between the person creating the Trust and the Official Trustee, and will vary according to the nature of the duties to be performed.

In *Existing Trusts, and on property received for infants and lunatics*, the rates are fixed by the act as follows—

- $\frac{1}{2}$ per cent. on capital monies received.
- $\frac{1}{4}$ per cent. on interest and dividends realised.
- $2\frac{1}{2}$ per cent. on rents collected.

Also $\frac{1}{2}$ per cent. on the investment, when necessary, of any funds received in each.

INVESTMENTS.

Capital monies and surplus income are vested in Government securities, except if he otherwise provided by the Deed or Will creating the Trusts.

CUSTODY OF SECURITIES.

All securities are kept in the Bank of Bengal, and cannot be removed from thence except under an order signed by a Judge of the High Court, specifying the purpose of such removal.

REMITTANCES TO EUROPE.

Remittances to Europe are made as direct by the parties to whom such remittances are to be payable, and in the absence of any directions by bills of certain Banks approved by the Comptroller-General of Accounts to an Official Agent at the India Office, London, for payment to parties entitled.

AUDIT.

The accounts are audited yearly by Auditors from the Office of the Comptroller-General of Accounts approved by the Chief Justice.

WILLS.

Persons wishing to make disposition of property by *Will*, and to appoint an Official Executor and Trustee, should appoint the *Administrator-General* as executor to administer the testator's estate, with a direction that after administering the same as executor, he shall hand over the residue to the Official Trustee upon such trusts as the testator may declare; or private persons may be appointed executors with the like direction as to the handing over of the residuary estate to the Official Trustee.

N. B.—It is important to note that the consent in writing of the Official Trustee to his appointment as Trustee under any Will must be obtained at the time of making such Will.

No person shall be enrolled as a matriculated student who has not previously passed the First Arts examination of the Calcutta or an Indian University, or a preliminary Arts examination of the United Kingdom recognised by the British General Medical Council.

All matriculated students of the College shall pay Rs. 15 on entrance, Rs. 35 for the summer session on the 23rd June, and Rs. 35 for the winter session on 1st November of each year. Rupees 6 extra will be required from each student for each course of dissections. Fees once paid cannot be refunded.

Mubammadan students are required to pay Rs. 15 on entrance and one-third fee, i.e., Rs. 12 per session. The remaining two-third fees are charged to the Moshin Fund.

Any matriculated students of the College may, with the permission of the Principal and the Professor of the subject, attend courses, of lectures or departments of hospital practice in addition to the full curriculum for the year, and shall be entitled to certificates of attendance at such extra lectures, if the Professor is satisfied that he or she has really studied the subject. The fees payable in advance for such additional courses are the following :—

	Rs.
For a single course of lectures on each subject in one year	40
For six months' attendance in each department of hospital practice	60

Any matriculated student who leaves the College before completing his University course with the object of continuing his studies at a medical school in Europe, may receive certificates of attendance, at lectures on payment of fees at the rate fixed in the foregoing rule. But in calculating the sum to be so paid, the amount of the fees already paid by him as a regular student, or in the case of a free student, the amount which would have been paid by him had he been a paying student, shall be deducted,

Any person not being a matriculated student of the College who wishes to attend any course of lectures or any department of hospital practice, may do so with the permission of the Principal and Professor of the subject on payment, in advance, of fees at the rates fixed in paragraph.

If such student has passed the Entrance examination of the University, he shall receive certificates of attendance at lectures. If he has not passed the Entrance examination, he shall receive no class certificates.

College scholarships (*vide* paragraphs 9 and 10), prizes and certificates of honour are open for competition only to matriculated students of the College, military medical pupil and female certificate classes.

Junior scholarships of Rs. 8 per mensem and free tuition for one year are annually awarded to 10 students of the 2nd and to 10 of the 3rd year, on the results of the 1st year's Test and Honour and Preliminary Scientific L M S and M B Examinations respectively.

Ten senior scholarships of Rs. 12 per mensem and free tuition tenable for two years are annually awarded to students of the 4th year on the results of the University first examination in medicine. But these shall not be awarded to students who gain Durga Charan Laha scholarship of Rs. 30 per mensem for two years, nor to other scholars. Students who have failed from any cause to pass at their first chance are not eligible for these scholarships (junior and senior).

Goodeve scholarship of Rs. 12 per mensem, tenable for one year, is annually awarded to a matriculated student on the 5th year, on the result of the midwifery test examination of the 4th year.

The F. O. Chatterjee scholarship of Rs. 17 per mensem, tenable for a year, is annually awarded to the best matriculated student of Native Indian extraction, and whose conduct is certified to be good, in histology at the end of the 4th year. The examination takes place in June each year.

Abdul Gunny scholarship of Rs. 26 per mensem, tenable for one year, is annually awarded to the end of the 4th year to the best matriculated students in all subjects at the class examinations of the 1st to 4th year inclusive. The award is made in May.

Duke of Edinburgh's prize is awarded to the best in surgery among the matriculated students at the end of the 4th and 5th year. The examination takes place in December or January.

A gold medal and certificates of honour are awarded to the best students in each subject at the Test and Honour examinations.

The objects of the Society, as stated in the original proposals, and ever since acted upon, are to provide fixed funds or resources for the maintenance of the children of deceased Officers; to relieve Officers from the burden contributing to private subscriptions in behalf of individual orphans and in the hour of sickness and of danger to yield to them the consolation that, in the event of their dying poor, a certain provision would be secured to their offspring.
